Pire Drives Negroes From Bed. Glored tenants living on the property at 21 West Fourth Street were forced to experience both extremes of atmospheric conditions early yesterday morning when fire, which started in the kitchen, forced them to leave their beds nurriedly and go out in the cold scantily clad. The damage was placed at about \$800, although some of the household effects were saved from the flames.

Villa's Men Rob 100 Passengers and Burn Train

[By Associated Press.]

[By Associated Press.]

EL PASO, TEX., March 6.—One hundred passengers of the Mexico City Express, the National Rallway of Mexico, Chihunhua City to Mexico City, were driven from their conches at the point of bandits' rillen near Corralitos, Chihunhua, Thursday, and were stripped and robbed in the name of Francisco Villa, according to messages received today by the El Paso Herald. The train was completely destroyed by fire after the robbery, and the travelers were left strauded, it was reported.

on Duty.

Dr. C. C. Hudson, City Health Officer, issued orders yesterday that members of the Health Department shall hereafter wear uniforms while on duty. It is believed by Dr. Hudson that better service can be obtained through the use of uniforms, and that citizens will respect officers more when certain of their connection with the Bureau of Health. Dr. E. C. Levy, Director of Public Welfare, has indorsed the move.

DESPITE STORM IN NORTH

C. & O. Employees Told to Be Courteous.

Although a storm, which has been unequaled this winter, has been raging the usual period of slow sledding in from Pennsylvania and the Northwest, getting under way, two contributions railroad passenger service here has so

than doubled the initial amount which opened the fund.

Case No. 20 is one which has no unusual or startling features. Poverty and suffering are too common to ever be startling, and the world is full of pitiful cases of frail widows left penniless with families of pitiful little children to bring up the best way they can.

I ar been unaffected.

Dispatches received here show that train service had not been badly crippled yesterday by the storm, as was the case some time ago, when a blizzard raged through the Northwest and Eastern sections of the United States. New York and Washington train schedules here were not badly upset yesterday, only one train arriving as much as thirty minutes late.

President George W. Stevens, of the

President George W. Stevens, of the Chesapeake and Ohio Railroad, Issued a builetin yesterday, setting forth the future policy of the road in regard to treatment of passengers. In the statement he said:

"A period of reconstruction lies ahead. A spirit of mutual helpfulness, justice and co-operation must prevail among officers and employees and must must all dealings with the nublic and mark all dealings with the public and patrons if satisfactory results are to be achieved. The railroads have been accused, and sometimes justly so, of indifferent treatment to and neglect of patrons. In future there should be no grounds for such accusation, and every employee will be expected and required to give prompt, efficient and courteous service.

Richmond, Va., March 3, 1920.

Dear Sir,—The casiest way for music lovers to accomplish a musical education is to enroll with the Hawaiian School of Music. I started Jan. 20, 1920. I did not know one note from another and had never played any kind of an instrument. I have finished my course and can read the standard notations and play the steel guitar by note. I am so pleased with my course that it gives me pleasure to tell others that this school's method of teaching is so simple that any one can do the same as I have done.

Yours truly. Yours truly, same as I have done.

EDWIN BUTLER. 1508 W. Main St., Richmond, Va.

Many people hesitate to start on the Hawaiian steel guitar; hower, all those who called at the studio and had our method of teaching explained to them immediately enrolled and are glad they did. You, too, would enroll if you could only be convinced how easy it would be for you to learn. Call today and let us teach you to play your first tune in 30 minutes.

"Out Into the Open With Baby"—

At this season of the year, now and then bright, sunshiny days will "peek" through, making ideal weather for "out into the open with baby." The fresh air will help build your little one a healthful body. Lots of fresh air is the thing baby needs. The right Carriage is important.

Some of the things you will want in a Carriage for your baby will be an adjustable hood, a roomy carriage body, durable upholstering that will not easily soil, light, flexible springs, and rubber-tired wheels that sit solidly on the axles. And these are all features of our Carriages.

Even though you may only want to buy a Go-Cart for your baby, you will find an abundance of beauty and style in our line. The "Strooler" and "Sulky" models shown at this store are of distinctive design, and are thoroughly made. Every little detail is just right in any "JURGENS" Carriage.

We have on exhibition some very attractive new models in Carriages and Go-Carts for 1920 which we would like to show you. Yes, Ma'am, there is a difference in Baby Carriages-Style and Priceand the difference—at this store—will surely please

But there are thousands whose love for their mother is just as deep—thousands who never fall to write home—TET they would hesitate to answer the question, "flave You Made Your Mother's Dreams Come True?"—simply because in the mad rush for the Success which they knew would make HER proud, they have slipped up on one point. They have neglected her oft-repeated words:
"Look to Your Health First, My Boy." In pushing their mental energies to the limit without the physical strength to back them up, they have allowed worry, work and ill health to sap the iron from their blood and leave them weak, nervous and rundown. These men are as anxious to get ahead as any one clee, but they do not realize that iron is absolutely essential to the greatest development of physical and mental power. But in the wear And tear of modern day life, when their forces are constantly drawn upon, they are without the sustaining strength produced by the nour-siantly drawn upon, they are without the sustaining strength produced by the nour-siantly drawn upon, they are without the sustaining strength produced by the nour-siantly drawn upon, they are without the sustaining strength produced by the nour-siantly drawn upon, they are without the sustaining strength produced by the nour-siantly drawn upon, they are without the sustaining strength produced by the nour-siantly drawn upon, they are without the sustaining strength produced by the nour-siantly drawn upon, they are without the sustaining strength produced by the nour-siantly drawn upon, they are without the sustaining strength produced by the nour-siantly drawn upon, they are without the sustaining strength produced by the nour-siantly drawn upon, they are without th
